EHS Specialist

Description

Company Overview: Integrated 3D LLC (i3DMFG) is the premier 3D metal manufacturing company in the Pacific Northwest. Our production facility is in Redmond, OR. We are seeking a select group of experienced, highly motivated, forward-thinking individuals to join our expert team.

Position Overview: The EHS Specialist will be responsible for high-level administration and organizational support for our manufacturing processes. The EHS Specialist is granted the necessary authority to manage, direct and administer safe industry standard practices at i3D LLC under the control of this position. Furthermore, the ideal candidate is self-motivated, has a strong attention to detail with an organizational and detailed mindset, proactively takes ownership of his/her responsibilities, is punctual in attendance and meeting goals, and remains flexible with scheduled hours.

Responsibilities

Job Responsibilities:

- Plan, design, develop, implement, and evaluate facility occupational safety, environmental, and health programs.
- Assist in designing programs to control, eliminate, and prevent injury caused by chemical, physical, or ergonomic factors.
- Provide regulatory oversight, and counsel to management and other employee groups on a broad range of occupational safety issues and decisions.
- Coordinate the activities of all regulatory programs and processes.
- Provide guidance to a wide variety of environmental, health, and safety topics.
- Direct and review the analysis of accident and injury data, identifying the needs for new or modified safety programs.
- Conduct environmental, health, & safety training for various departments and divisions.
- Conduct inspection, investigations, and occupational safety activities in various departments and processes.
- Research occupational safety information to ensure the best available methods and equipment are adopted to minimize the hazards in the workplace.
- Periodically act as a team leader on special projects.
- Maintain records of all safety and environmental training, inspections, audits, regulatory information etc.
- Build relationships with partners for environmental compliance-local, regional and company. (Landfill disposal sites, hazardous waste companies, consulting firm, state etc.)
